

CALL FOR PAPERS

International Workshop on Future Internet Testing (FITTEST 2013)

in conjunction with The 25th IFIP International Conference on Testing Software and Systems (ICTSS 2013)

November 12-16, Istanbul, Turkey

The First International Workshop on Future Internet Testing (FITTEST 2013) will be held in Istanbul, Turkey in conjunction with the 25th IFIP International Conference on Testing Software and Systems (ICTSS 2013). FITTEST 2013 will consist off:

- A dedicated **workshop** for the software testing community working in the domain of Future Internet (FI) applications. Topics include (but are not limited to):
 - new techniques and tools for testing Future Internet applications that deal with the dynamic, adaptive and self-* properties of FI applications,
 - evaluation of testing techniques and tools on real systems through case studies.

- A **tools competition** for Java Unit Testing tools (ROUND 2). This competition is a follow-up on the competition run at SBST 2013 at ICST2013 in Luxembourg. It will be based on a different benchmark made for FITTEST2013. The objective is to facilitate a comparison of testing tools, and stimulate discussion at the workshop of the advantages and disadvantages of particular approaches to the problem. Entries will demonstrate their tool at the workshop and present their results of the competition.

IMPORTANT DATES

Abstracts deadline: **August 27, 2013**

Full Paper deadline: **September 15, 2013**

Notification: **October 01, 2013**

Camera-Ready: **October 15, 2013**

PROGRAMM COMMITTEE

Paolo Tonella, Fondazione Bruno Kessler, Italy

Alessandra Bagnato, Softeam, France

Nadia Alshahwan, University of Luxembourg, Luxembourg

Atif Memon, University of Maryland, USA

Joachim Wegener, Berner & Mattner, Germany

Mark Harman, University College London, UK

John Penix, Google, USA

Scott Tilley, Florida Institute of Technology, USA

Bilha Mendelson, IBM Haifa, Israel

Wishnu Prasetya, Universiteit Utrecht, The Netherlands

Andrea Polini, University of Camerino, Italy.

Yue Jia, University College London, UK

Simon Poulding, University of York, UK

Nelly Condori Fernandez, Universidad Politecnica de Valencia, Spain

SUBMISSIONS

Contributions can be:

1. **Long papers** (16 page limit). This format will be used for papers on original research results in the domain of testing Future Internet applications.
2. **Short papers** (10 page limit):
 - a. on novel techniques, ideas and positions that have yet to be fully developed
 - b. for tool competition entry papers that describe the evaluation results of testing a benchmark provided by FITTEST2013.

All contributions have to be submitted electronically in PDF format via EasyChair <https://www.easychair.org/conferences/?conf=fittest2013>. All submissions have to follow the Springer LNCS paper format.

Accepted full papers are published by Springer in the LNCS series. Accepted short papers will also be published in the same LNCS volume in a separate section.
